25X1	1. My good friend mentioned to me on 11 June that a very capable professor named happens to be available					
25X1	for about a three-month period. knows that we are working to define ways to study societal change. He has talked with a number					
25X1 (25X1) 25X1	of your people and has given them suggestions on this. I have such a high regard for advice in these matters that when he says is a very capable man in the LDC area (he was born and raised I put a lot of faith in it. Because the subject of societal change is so critical to us, I wonder if we could afford to put on contract for about three months to do a separate look at how we should be going about our studies in this area.
